

Our family will (continue to) join the hundreds of YOSS families providing our children with sound boundaries and self-control by (re)joining the “Tech-in-Check” movement! We commit to the following, *bli neder*:

1. Our son(s) will not have their own personal device through 8th grade.
2. From Monday-Thursday, our son(s) will not use technology for entertainment purposes, including gaming. This does not include watching sports.**
3. All devices that our children have access to will be properly filtered through Smart Connections, Project Trust, or an approved filtering system.
4. We will monitor our son(s) weekend exposure, setting realistic and attainable expectations.

***YouTube will not be used, even for sports.*
